SUMMARY

Computer Science student with a CGPA of 8.95 and a strong foundation in programming, software development, and database management. Experienced in Python, Machine Learning, Cloud Computing, and Full-Stack Development through academic and personal projects. Developed applications including weather forecasting, AI interview preparation, fake news detection, and chess AI systems using technologies such as React, FastAPI, MySQL, TensorFlow, and AWS. Passionate about building innovative solutions and continuously expanding technical expertise in Artificial Intelligence, Cloud Computing, and Software Engineering.

PROJECTS

Pune Weather Forecasting System

Developed a weather forecasting platform trained on 13+ years of hourly weather data (116K+ records) from Pune. Engineered 70+ predictive features and built machine learning models for temperature, feels-like temperature, and rainfall prediction. Developed a FastAPI backend and React frontend for real-time forecasting and weather analytics.

TruthGuard – Fake News Detection System

Developed a machine learning-based fake news detection platform using Python, Flask, Scikit-Learn, and MySQL. Implemented text preprocessing, feature extraction, and classification models to identify fake and real news articles. Built secure user authentication and prediction tracking modules.

Chess AI Engine

Developed a chess engine in Python featuring move generation, board evaluation, and game state management. Implemented Minimax with Alpha-Beta Pruning to optimize AI decision-making and built an interactive chess interface supporting legal move validation and strategic gameplay.

SKILLS

Languages	Python, C++, C, SQL
Core CS	DBMS, Operating Systems, Computer Networks
Machine Learning	Scikit-learn, TensorFlow, Pandas, NumPy, NLP, Feature Engineering
Databases	MySQL, Firebase
Tools	Git, GitHub, Docker, Postman, VS Code, Jupyter Notebook, Excel, Power BI
Soft Skills	Problem Solving, Communication, Team Collaboration, Leadership

EDUCATION

Vishwakarma University (2024–2027)

B.Tech Computer Science and Engineering – CGPA: 8.95

AISSMS Polytechnic (2021–2024)

Diploma in Computer Engineering – 83%

AEMS (2021)

SSC – 86%

EXPERIENCE

Web Development Intern

Jun 2023 - Jul 2023 IndiaTechSoft, Pune

Pune, Maharashtra

Completed a 45-day Web Development Internship at IndiaTechSoft, Pune, where I gained practical exposure to web development concepts, software development workflows, debugging, testing, and collaborative project environments. Recognized by the organization as a sincere, hardworking, and result-oriented team member.
